ANNUAL RETURN: FORM 21 - ADDITIONAL INFORMATION

I556L TRANSAMERICA LIFE (BERMUDA) LTD. (S'PORE BRANCH)

Reporting Cycle: 2007 12

Due to very successful sales in the fourth quarter, the Branch had a significant amount of excess cash in the custodial account with Citibank London. Much of the cash had not been invested because a large portion of the fourth quarter business was on TransACE Universal Life Product. This product is reinsured with the parent company and the Branch was holding the cash to pay the reinsurance premium due. This excess cash position in the custodial account caused a relatively large C3 concentration risk requirement which lowered the Offshore Insurance Fund ("OIF") fund's solvency ratio and the capital adequacy ratio to below 100%. If the reinsurance premium was paid prior to year-end, the excess cash position would have been resolved and the C3 concentration risk requirement would have been reduced to zero which will have restored the fund solvency ratio to a more suitable level. However, the reinsurance premium was only settled in January 2008.

Transamerica Life (Bermuda) Ltd and its Singapore Branch are adequately capitalized and are still solvent. The fund solvency ratio and capital adequacy ratio fell below 100% due to a temporary position of having too much cash with one financial institution. This excess cash position results in the calculation of a large risk requirement which temporarily lowered the ratios.

ANNUAL RETURN
